The Honorable Peter A. DeFazio, Chairman
The Honorable Sam Graves, Ranking Member
House Transportation & Infrastructure Committee

Dear Chairman DeFazio and Ranking Member Graves:

I am requesting funding for Quint-Jerrold Connector Road in surface transportation reauthorization legislation.

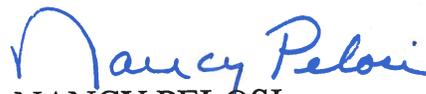

The project sponsor for this project is the San Francisco County Transportation Authority (SFCTA) and the project is located at Jerrold Avenue, San Francisco, CA 94124.

The funding is designated for reconnecting two important throughways in the Bayview, restoring a high-traffic route that was eliminated by a Caltrain berm project. Currently, vehicles traveling between Oakdale and Jerrold use Phelps Street, which is located in a residential area and was not designed to accommodate heavy traffic.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits: enhancing the traffic circulation in the area for businesses that are a critical part of markets and restaurants in the area, reducing the safety concerns for those living on Phelps Street, and serving a possible future Caltrain light rail station, giving customers easier access to the station and the ability to come and go with ease.

I certify that neither I nor my immediate family has any financial interest in this project.

best regards,

NANCY PELOSI
Member of Congress
