**Re: Support for the San Francisco Department of Public Health's (SFDPH's) FY 2027  
Community Project Funding Request**

Dear Speaker Emerita Pelosi,

I write in support of the San Francisco Department of Public Health's (SFDPH's) FY 2027 Community Project Funding Request for \$3 million for the Elevator Modernization Project at Zuckerberg San Francisco General Hospital (ZSFG).

DPH's ZSFG cares for approximately one in eight San Franciscans a year, regardless of their ability to pay. As the City's safety net hospital, ZSFG provides the highest-quality services, including to many patients covered through Medi-Cal. It provides life-saving emergency care as the only level one trauma center in San Francisco, serving a region of more than 1.5 million people. The hospital functions as the health care provider of last resort, ensuring that all patients receive necessary care regardless of their ability to pay. This role is particularly critical given that we serve not only uninsured and underinsured patients but also provide essential community services that benefit all residents, regardless of insurance status.

The Elevator Modernization Project will help to ensure the hospital can remain operational, effective, and in regulatory compliance to continue provide essential health care to San Francisco's diverse communities. The project would modernize elevators across the hospital campus buildings that are repeatedly failing and causing major service disruptions. Specifically, this project will replace all internal equipment and refurbishment of the elevator doors.

By investing in resources to ensure safe, resilient, and accessible hospital infrastructure, this project will strengthen a public health institution that serves all our residents.

As such, I write in support of the San Francisco Department of Public Health's (DPH's) FY 2027 Community Project Funding Request for \$3 million for the Elevator Modernization Project at ZSFG. Thank you for your continued leadership and consideration.

All my best,
