February 23, 2022

The Honorable Chairman Peter A. DeFazio
The Honorable Ranking Member Sam Graves
House Transportation and Infrastructure Committee

Chair DeFazio and Ranking Member Graves:

I am requesting funding for "Converting SFO's Treatment Plant to an Aerobic Granular Sludge System" Environmental Infrastructure Project in the Water Resources Development Act of 2022. The entity to receive this project is San Francisco International Airport and the project is located at San Francisco, CA 94128 in California's 12th Congressional District.

The funding would be used to convert SFOs current Treatment Plant to use an Aerobic Granular Sludge system that will remove more ammonia and nutrients from airport and human waste and reduce the risk of harmful algae blooms and toxic contamination in San Francisco Bay.

I certify that neither I nor my immediate family has any financial interest in this project.

best regards,

NANCY PELOSI
Speaker of the House
